

Table no: 1

Table: tbl_Login

Primary Key :login_id

Table Description: To store All user Login Details

Sl no	Field Name	Data type	Description
1	login_id	Int(8) AI	Primary key to identify each user in the table
2	Password	Varchar(50)	Password of each users
3	Usertype	Var char(50)	0,1 for admin and user
4	Status	Int(8)	Status of each user

Table no: 2

Table: usr_reg

Primary Key :t_id

Table Description: To store All registered users

Sl no	Fields	Data type	Description
1	T_id	int	Id of the trinee
2	Fname	varchar	First Name of the user
3	Lname	varchar	Last name of the user
4	House name	varchar	Housename of trainee
5	City	varchar	City of trainee
6	Contact number	double	Contact number
7	Gender	varchar	gender
8	Height	double	Height of trainee
9	Weight	double	Weight of trainee
10	Blood group	varchar	Blood group
11	Status	int	Status of the table 0 or 1

Table no: 3

Table: imprvmnt_tbl

Primary Key :imp_id

Foreign key :t_id,tr_id

Table Description: To store All improvement Details

Sl n0	Fields	Data type	Description
1	Imp_id	int	Id of imp details
2	Tid	int	Id of the trainee
3	Trid	int	Id of the trainer
4	Height	Double	height
5	Weight	Double	Weight
6	Bmi	Double	Body mass index
7	Biceps	Double	measurement of biceps
8	Hips	Double	Measurement of hips
9	Forarms	Double	Measurement of forarms
10	Chest	Double	Measurement of chest
11	Wrist	Double	Measurement of wrist
12	Status	int	Status of table 0 or 1

Table no: 4

Table: trainer_tbl

Primary Key :tr_id

Table Description: To store All Details of trainers

Sl n0	Fields	Data type	Description
1	Trid	int	Id of trainer
2	Fname	varchar	First Name of the user
3	Lname	varchar	Last name of the user
4	House name	varchar	Housename of trainee
5	City	varchar	City of trainee
6	Contact number	double	Contact number
7	Gender	varchar	Gender
8	Experience	varchar	Experience of trainer
9	Section time	Date time	Time that trainer is available
10	Section	varchar	Female or male section
11	Status	int	Status of table 0 or 1

Table no: 5

Table: online user_tbl

Primary Key :o_id

Table Description: To store All Details of trainees who takes only online training

Sl n0	Fields	Data type	Description
1	Oid	int	Id of the user
2	Fname	varchar	First Name of the user
3	Lname	varchar	Last name of the user
4	House name	varchar	Housename of trainee
5	City	varchar	City of trainee
6	Contact number	double	Contact number
7	Gender	varchar	Gender
8	Height	double	Height of trainee
9	Weight	double	Weight of trainee
10	Blood group	varchar	Blood group
11	Status	int	Status of the table 0 or 1

Table no: 6

Table: instrument_tbl

Primary Key :in_id

Table Description: To store All Details of the instruments in the gym

Sl n0	Fields	Data type	Description
1	Inid	int	instrumentid
2	Name	varchar	Name of instrument
3	Cost	double	Cost of the instrument
4	Date of arriving	date	Date of arriving of instrument
5	Warranty	date	Warranty of instrument
6	Status	int	Status of the table 0 or 1

Table no: 7

Table: payment_tbl

Primary Key :bill_id

Foreign key:t_id

Table Description: To store All Details about the fee payments

Sl n0	Fields	Data type	Description
1	Bill id	int	Id of bill
2	tid	Int	id of trainee
3	Amount	double	fee
4	date	date	Date of remitting fee
5	Bank id no	Double	Passbook no of bank
6	IFSC code	double	Ifsc code
	status	int	Status of the table 0 or 1
